

# VELVET Sprayz

Cone 05-10

## THE VELVET SPRAYZ ADVANTAGE

- **Spray with ease!**
  - We tested multiple actuators (AKA nozzles) & chose one that provides the best control & coverage.
  - Actuators can be interchanged easily for different spray patterns. No need for the spray gun!
- **7 colors AVAILABLE in 10 oz containers !**
  - Available in White, Yellow, Real Orange, Bright Red, Medium Blue, Dark Green & Jet Black.
- **NEW Formulation with 100% inorganic binders!**
  - New formulation helps minimize clogging.
- **Velvety smooth, unglazed finish!**
  - Just like the Velvet Underglazes customers know & love.
- **BOLD, VIBRANT COLORS at ANY CONE!**
  - Velvet Underglaze colors that perform the best at all cones.
- **Steel Can!**
  - Added strength & longevity.
- **Consistent & reliable results!**
  - The Sprayz are stiff and won't run when fired without a glaze, just like Velvet Underglaze.

# FAQ

- **APPLY TO:** Greenware, bisque or over glazed pieces to create a different surface.
- **FIRE TO:** Cone 05, 5 or 10
- **FOOD SAFE:** Approved when applied and fired under AMACO LG-10 or HF-9 clear glazes.
- **TIPS & TRICKS:**
  1. Shake the can before use.
  2. Spray outside your edges.
  3. Keep can in motion, don't spray in one spot - unless that's your thing!
  4. Maintain a consistent distance.

# SPRAY CAN 101

- **Wear proper PPE!**
  - Like spraying any ceramic product, Velvet Sprayz require proper PPE & ventilation for use. We recommend a NIOSH N95 or a higher mask. Spray in a well-ventilated area or outside.
- **Shake well before using!**
  - You should hear the marble in the can when you shake it.
- **When finished spraying, invert the can and spray until the can sprays clear!**
  - This will help prevent clogging.
- **Store in a cool & dry place!**
- **Follow local municipality rules for proper disposal!**
  - Your empty can of Velvet Sprayz can be disposed of in the same way you dispose of spray paint. Spray cans typically should not be disposed of in household trash. Search "hazardous household waste disposal near me" to find out how spray cans are handled in your area.
